

Vehicle Service Technician Apprenticeship

In an increasingly busy world, demand for quick, responsive, high street vehicle repair has seen companies like Kwik Fit become national success stories. To fill the skills demand for experienced technicians who can operate in a fast-paced garage environment we have developed the Vehicle Service Technician programme.

You will need to have completed the Level 1 full-time introductory course, have prior work experience or be in a position to move into a work placement in this sector. Once you have completed the Level 2 qualification, you will be able to work in the industry or further study or an advanced apprenticeship.

This two-year apprenticeship is ideal if you want to earn while you learn and have a service centre willing to employ you for the duration of the course.

□ Ideal if

You would like to pursue a career as a vehicle service technician.

□ You'll need

GCSEs in English and maths at grade 4 or above, plus a relevant Level 1 qualification such as Transport Maintenance Diploma.

□ You'll learn

You will learn a range of theory and practical skills to allow you to work in the booming service centre industry. During your training you will focus on:

- Health and safety and good housekeeping in the workplace
- How to identify and agree customer needs and parts retail
- Inspection, repair and replacement of parts (cars and motorcycles)
- Tyre fitting and wheel alignment
- Parts ordering, stock management and staff resource planning
